

Ajuntament
de Muro

Dear Sir or Madam,

The Muro City Council would like to welcome you into our municipality and to share with you our goals in terms of sustainability and environmental protection. Therefore, we would really appreciate it if you could take some time to read and observe the following points:

1. Our municipality has limited water resources, which combined with the weather conditions on Majorca makes the situation worse during drought season. Therefore, it is extremely important that you make wise use of water.
2. The Muro City Council has signed the so-called "Pacte dels Alcaldes" (Covenant of Majors) and has committed itself to reducing power consumption and CO2 emissions. Therefore, we kindly ask you to make sensible use of energy (lights, air conditioning, etc.).
3. Muro is committed to uphold waste management policies promoting waste reduction and recycling. Please separate waste accordingly and, if applicable, take it to the municipal dumping site. Check the list below to find out how to classify waste by container

We hope you have a pleasant stay in Muro.

Regards,

Mayor of Muro
